Directors' Meeting

The S.A.D. 44 Board of Directors met in a special meeting for work on the fiscal year 1985 budget on Monday evening of this week. The three hour and 45 minute session was held in the Telstar Lecture Hall.

Faced with a tentative gross FY 1985 budget (\$3,276,256.63) that reflected an approximate 14% increase over FY 1984 (\$2,874,390), the Board trimmed \$96,233. The result of their efforts leaves a 10.6% rise over FY 84, with a gross amount of \$3,180,023.63.

If adopted by the Directors and subsequently by S.A.D. 44 voters, the latter amount would appear to necessitate that an amount of \$1,279,490.16 be raised locally which would require assessments to member towns in FY 85 of (with percentage of increase): Andover, \$232,548.96 (12.8%); Bethel, \$477,246 (15.9%); Greenwood, \$206,537.36 (12%); Newry, \$118,480.80 (21.1%); Woodstock, \$244,697.04 (12.3%).

In another matter, the Board accepted the resignation of Donald Isham, instructor in the elementary special education composite room at Crescent Park School, who has been in S.A.D. 44 for three years.

Board members absent Monday evening were: Kay Chabouze of

CHAMBER MEETING FOR NEW MEMBERS CALLED

The Greater Bethel Chamber of Commerce will hold a special meeting on Wednesday, May 9, at the Sunday River Inn starting at 7:30 p.m. New business owners and newly-joined members are urged to attend and discuss organizing activities for the coming season.

Besides allowing new members to introduce themselves, the meeting agenda will cover the need to nominate new officers and directors for 1984, whether or not to form any special committees and to prepare for the Chamber's annual meeting in June.

Other business to be considered is the stepping aside of the present volunteer Executive Director, Donald Bennett, and the need to provide for a continuing point of contact within the organization for communications and meeting arrangements.

The Bethel area's advertisement in the Maine Publicity Bureau's "Maine Invites You" magazine has drawn a number of inquiries. Consequently, a replenishment and updating of the Chamber's publication is necessary in order to continue to have information available for mailing and information center distribution.

Sent in by Viva Whitman:

More sunshine than rain this week and didn't seem good for a change. Russell and I started clearing the living room bright and early Monday morning so we would be ready for the move. It takes time to move furniture and we didn't want any more delay, so got right at it and had it ready and waiting when they came. Putting the furniture back and getting it to look right again took a little time too, but I was so glad to have it looking good.

Peggy had been down to her daughter Myrna's home in Auburn visiting and called as the last of the move was laid. She thought it looked good also. While here she stayed for lunch.

Tuesday we went to West Sumner in a heavy rain. The road is rather a mess from Trap Corner over through a ways, but am sure it will be a lot better than it used to be, when they are done.

Had to go to the doctors on Wednesday, so went early enough to do a few errands plus the wash before heading for Fryeburg. They aren't getting ahead very fast on the bridge over there because of the high water and so much rain.

Stopped to get an ice cream on the way home. Russell gets sleepy driving and if he can have an ice cream, it is surprising how fast he can wake up. The ice cream was good and the amount large for a medium cone.

I just puttered around the house and got outside a little on Thursday. It seemed so good to see sunshine again and the ground around here is so wet, it will take a lot of sunshine to ever dry it out. We listen to our feet squish in the sod as we go around doing when we can. Had some cupboards that I hadn't got painted so did that and dug around in the mess out back to help the water run faster. Russell doesn't think it will help, but did it anyway.

Friday didn't start off very good for me. My parakeet hasn't been feeling just right and died on Friday morning. I have had him for five and a half years so will miss him very much. Couldn't replace him if I wanted to as there just couldn't be another bird as smart as that one was. The things he could say and the antics he went through when out of his cage were something one doesn't see from many birds. He was a Christmas present from two good friends in 1978 and was a well traveled bird as he had been to Florida and back twice, to Whitefield, N. H., and back many, many times with me in the car on my days off, he was in the car accident. I was in 1982 and rode in the ambulance to the hospital and even waited in the emergency room until a friend could come to take him to my daughter's home, so you see he was a very special bird.

Russell started rototilling the ground out front of the house so he can plant a flower garden but thinks at this point he has hit the devil's rock pile. It certainly is rocky but hope we can make a go of it. He says he has to get enough of the rocks out for the flowers to have a chance to put roots down between them at least. He got a small lot done and planted spinach as he has told it does better if planted real early. Also planted some rhubarb roots we brought with us and hope they will survive. Only time will tell, but the forsythia bush has started putting out leaves and needs to be

put into the ground. We were surprised that it didn't die during the winter. It was outside the trailer in a box or basket with no protection, but it looks good and healthy. Wish I looked as good as that bush does. We have other plants that we brought the same way and don't know yet just how many have lived, but the Widows Tears are starting and Russell saw life in the peonies that we brought, so guess if we can get them into the ground, maybe they will live and grow. We hope so anyway.

Went to get groceries early Saturday morning as I needed things to make a casserole for the Grange meeting that night. Didn't do any more than I had to that day and Russell took it rather easy also. Went to Bryant Pond and got Verna to go with us to the meeting. Deputies, Lewis and Myrtle Bisebee from Oxford were guests for the evening and there to give instruction. We had a rather lengthy meeting and it was late before we got home. We set the clocks ahead an hour and it made it midnight by the time we got to go to bed.

Sunday and another bright day! Doesn't seem possible we have been lucky enough to have four good days in a row, but we are enjoying it very much. My foster daughter, Helen Strout, of Oxford came to see me and stayed for lunch. She had the misfortune to lose her father and needed to have a chance to talk. I wish I could drive farther so I could see her more often. She is like my own daughter and I am glad she came to see me.

Russell did some more rototilling in the yard and we dug more rocks. I went out to help what I could and while we were out there, our neighbor as well as nephew's wife, Carolyn Yates, came up the road to talk a while and then I just had to show her how nice the home looks after all the work Russell and I have done. She has African violets as I do, so we had to discuss them too. We have watched the cars come and go today and you would think summer was here by the way people were dressed and with windows open, tops of cars down and the many motorcycles going by. This is a busy highway, and it is interesting to see the many different vehicles that pass by. It is also good to see the many birds that are appearing now and to listen to their many different songs. It is nice to awaken to the sound of birds singing in the trees around the area.

The next Grange meeting at Bear River Grange, Newry, will be on May 12, with a Mother's Day program so hope to see a good attendance there. A 6:30 pot luck supper will precede the meeting as usual and it is always good with plenty for all and the nice folks there make it worth coming. Wish some of our members who haven't been coming would wander back. We would give all of you a good welcome as we need more members coming and it makes for more fun for all involved. We would be more than happy to hand out applications to anyone who would like to become a member and join our meetings and programs. Let us hear from you.

CARD OF THANKS

I wish to extend my deep and sincere appreciation to the Bethel Staff, and my co-workers, of the Casco Northern Bank for making my retirement from the Bank such a memorable occasion. I know you planned the fantastic dinner party at Sunday River Inn, but to the Bank for its generosity in making it possible I am most grateful. The gifts are super and having my family present made it more memorable. You continued to honor me with a Special Day at the Bank that turned into three days. I can never repay you for your thoughtfulness. To the more than 200 people who visited me to wish me a happy retirement, for the cards, gifts, and flowers, even from some who could not get to the Bank, I am so pleased and happy to have seen you or heard from you. It has been truly a most memorable occasion. Many, many thanks and God Bless you All.

Joe Vatcher rented a sander and edger and sanded the floor at the Community hall. Howard Anderson and David Lyons helped him and they looked like fell into the flour barrel. Rupert Ellingwood helped with the painting and they ran short so had to order more. Ron Ross stopped at the hall to see where the large picture was hung that was donated by Mrs. Norma Ross in memory of her late husband, Alexander Ross who was a native of North Paris.

Doris Lawrence went to Mexico Thursday afternoon to stay with her older sister, Alice Goff until Sunday as Mr. and Mrs. Norman Abbott went to Portland to the Knights of Pythias and Pythian Sisters convention. Norman stopped at the Vatchers to show them the new car he had just bought.

Mr. and Mrs. Harlan Abbott went to Berlin, N. H., Friday evening and they called on Mr. and Mrs. John Ames and daughters at Gorham, N. H., on the way home. Lloyd Huntley went to Stephens Memorial Hospital for tests as he thinks he has the gout.

Jimmy and Jane Abbott were canvassing for the cancer fund on Thursday.

Callers at Lawrence's: Jimbo Coffin, Mr. and Mrs. Herman Card, Albert Penley Sr., Jo-Anna Poland, Lloyd Huntley, Joe and Eveline Vatcher, Heather Mason.

Roland Lord stopped at Joe Vatcher's to see if the Game Warden should be notified there was a large moose by Robert Anderson's trailer. He watched it for ten minutes and said the hair was off in several places and he wondered if it might be sick. Joe went right over but the moose was gone. Maybe Roland didn't know that the animals shed their hair in the spring.

The benefit supper for the Roanell Cummings family was well patronized and over \$500 was given.

**WOODSTOCK HISTORICAL SOC.
REVIEW**

This is to recommend to you a classic in the field of history: Will and Ariel Durant's "The Story of Civilization." So often as we go about our merry way in historical research, we forget the basics, and these are precisely what this multi-volume work provides. True, the reading is not easy, but you must consider that you might have to read hundreds of other books just to find out what one volume of this work contains. It summarizes the lives and times of all the best artists, statesmen, economists, scientists, and philosophers of western civilization. Much of what is cloudy about history is made clear by the remarkable perception of the Durants, who were experts in so many fields. The following is a prime example of their incisive prose: "Let us agree that in every generation of man's history, and almost everywhere, we find superstition, hypocrisy, corruption, cruelty, crime, and war: in the balance against them we place the long roster of poets, composers, artists, scientists, philosophers, and saints. The same species upon which poor Swift reigned the frustrations of his flesh wrote the plays of Shakespeare, the music of Bach and Handel, the odes of Keats, the 'Republic' of Plato, the 'Principia' of Newton, and the 'Ethics' of Spinoza; it built the Parthenon and painted the ceiling of the Sistine Chapel; it conceived and cherished, even if it crucified, Christ. You did all this."

The next meeting of the Woodstock Historical Society will feature two crafts: cake decorating and leather work. Plan to attend an informal evening of these two demonstrations. Winter is over

FROM THE Maine State Senate

R. Donald Twitchell
State Senate District 5

April 25, 1984

The 111th Legislature has now completed its work . . . not without some excitement and some drama. As the clocks approached midnight on Wednesday, lawmakers were still working to resolve many of the most difficult problems facing the people of Maine. The results will not be known until the Governor reviews this legislation. If lawmakers' wishes are answered, we will see a hike in the minimum wage. Lawmakers also said "no" to more than \$125 million worth of bonds, preferring to wait until after the special session in June when they will consider what funds will be necessary for education.

On Tuesday, lawmakers finally passed a 30 cents increase in the minimum wage. The increase will be paid in increments of 10 cents annually for the next three years. The final vote in the House saw the measure pass on the slimmest margins—66-65.

Proponents of the measure cited the need for compassion and the necessity to help out the 100,000 Maine people who are at the lowest rung of the economic ladder. Opponents of the increase countered these arguments saying that increasing the minimum wage would endanger the jobs of many and paint a less favorable business climate picture for potential entrepreneurs.

The bill is now on the Governor's desk awaiting his signature. Prior to the minimum wage debate, the Governor asked the State Planning Office to study the effects of the increase on the state's economy. The results of this study are expected to have an important impact on the Governor's decision.

The Legislature reacted with a collective sigh of relief as Governor Brennan decided to sign the bill to aid the Dept. of Inland Fisheries and Wildlife. After expressing some reservations about the

BLANCHARD - TATTERSALL

Mr. and Mrs. Malcolm Bennett of Evans Street in Gorham, N. H., are pleased to announce the marriage of their daughter, Kathi Vien Tattersall of Biddeford, Maine, to Steven Blanchard of Biddeford, Maine. Steven is the son of Mr. and Mrs. James Blanchard of Locke Mills.

The wedding took place in Biddeford on March 17. Best man was Scott Blanchard, brother of the groom, and maid of honor was Vicki Vien, sister of the bride. Kimberly Tattersall served as flower girl.

bill, Brennan finally signed the legislation after saying that he believed it would aid the department's long-range difficulties.

The Committee on Audit and Program Review has completed its review of the Departments of Conservation and Inland Fisheries and Wildlife. As a result of the Committee's legislation over \$300,000 will be returned to the State's General Fund Revenue and an additional \$93,000 will be returned to various dedicated revenue accounts. In addition, the Committee's final legislation which has been enacted by both houses contains many changes which will work to improve the management of these departments and save the state money in the future.

These changes include: a reorganization of the Department of Inland Fisheries and Wildlife and legislation which strengthens the regulatory oversight of forest insect aerial spray programs while requiring that the public be given adequate notification prior to the commencement of these programs. Further, the Committee's work resulted in legislation which eliminates multiple state audits of funds contracted by the state with community agencies, a practice which is costly, time consuming and duplicates efforts.

The issue which kept lawmakers here after the midnight hour Wednesday was more than \$23 million in proposed bond issues for Maine prisons, courts and other projects. All of these issues were killed prior to adjournment with the exception of a \$15.7 million bond proposal to finance hazardous waste cleanups and sewage-treatment projects.

Because of the Legislature's adjournment, I will not be at the State House as often during the next few weeks. However, do not hesitate to contact the Senate Majority Office with your concerns or comments at 289-2286.

Letters to the Editor

Three Benson Drive
Danbury, Conn.

To the Editor:

For years I have waited for the citizens of Andover and/or Bethel to proclaim a special day for a "Living Legend" who resides in your midst. This man has been an inspiration to hundreds of young skiers in Andover and vicinity. As a youth, he was well on his way to a berth on the U. S. Olympic Ski Team, but instead of competing in mere games, he selflessly joined the United States Coast Guard to defend our country against enemy invasion.

Many of us would never have had the ambition to excel in winter sports had it not been for the greatness of our idol, mentor and a legend in his own time, STAN FOX!!!

Sincerely,
M. S. Stowell

Dear Governor Brennan and others interested in the Forest Fire Suppression Tax:

Those persons elected to represent the people of our State have made the decision that the Forest Fire Suppression Tax is unconstitutional and discriminatory. I understand you may be considering vetoing that decision.

The Forest Fire Advisory Committee, to which you appointed a representative, has determined that less than 3% of forest fires are caused by owners of forested areas. It was also determined that most of the privately owned woodland of Maine is shared with the public who enjoy wilderness and outdoor recreation. The conclusion is; the wilderness woodlot owner is neither the major cause of the fire problem, nor the primary or only user of the resource being protected.

However, if it is your impression that those people who live on or own forested property should be given the major or entire burden of paying for fire protection, then of course you may want to sponsor the following: a Flood Suppression Tax for those living near rivers or flood plains, a Crime Suppression Tax for those in areas of higher crime, and perhaps a Pothole Suppression Tax for those living on public highways.

My point is simply, those persons who happen to live on or own property in an area with a specific problem, are not necessarily the cause of that problem, and certainly should not be penalized financially, through a discriminatory tax (e.g. Forest Fire Suppression Tax)!

Sincerely,
Den Corrin

FROM THE BETHEL AREA HEALTH CENTER

The time has come for annual physicals for camp and school athletics. Ten years ago a minimal physical every year was acceptable.

However, recent studies by both the American Academy of Pediatrics and the American Academy of Family Physicians indicate that a thorough physical every 2-3 years for the healthy child over six years old is all that is necessary and that routine annual examinations on the healthy person are proving to be a waste of time and money. This position is supported in the following:

The Committee of School Health, American Academy of Pediatrics reports that "lineup physical examinations are not recommended." The Harvard Medical School Health Letter of July 1980 further states that "careful study indicates that the cost (or even the risk) of many traditional procedures far outweighs the rare benefit derived when they are done routinely on healthy persons. . . If more time and money go into examining healthy people, less is available to treat the sick."

However, because many camp and athletic programs still require some type of physical exam within a year, the Health Center will provide a screening physical for our regular patients who have had a complete examination within the last two years. The completion of

a questionnaire asking for a health history since the last physical exam is required by the parent or guardian.

We would like to explain the difference between a screening physical and a complete physical. A screening physical consists of a very brief examination of the child for major abnormalities and includes a blood pressure, vision test, urinalysis and hematology. If the child is healthy, camp or school forms can then be completed. Any significant health problems however, will require a return visit in order to complete a full evaluation and decide on treatment.

A complete physical involves all of the above plus an in depth health history such as any extended illnesses, allergies, asthma, hepatitis, any injuries requiring medical attention, tetanus booster, fainting spells, etc. If significant health problems surface, further evaluation and treatment are recommended.

While Dr. Mingle is at the Health Center (through June) we have extended office hours and more time is available to perform physical exams. We urge those parents with children needing camp or school physicals to make an appointment before the busy summer season is here.

ADULT & COMMUNITY ED. LEARNING FAIR SCHEDULED FOR WEDNESDAY, MAY 16

The S.A.D. 44 Adult and Community Education program will hold its end-of-term Learning Fair on Wednesday, May 16, at Telstar Regional High School. The evening will start with a pot-luck supper at 6 in the Cafeteria. Those attending are asked to bring a family-size hot-dish, salad or dessert to share. The Fair will be held in the Gymnasium, and will feature displays and demonstrations by classes from the Spring Term. In addition, there will be special displays and demonstrations relating to Health Awareness, Muriel Whitney of the Bethel Area Health Center has assisted Adult and Community Education Director Cathy Newell in obtaining some special displays relating to such health subjects as High Blood Pressure, Child Safety Seats, Smoking and Health, and Child-birth classes.

All students in the S.A.D. 44 Adult and Community Education program, their families, and interested citizens are invited to participate in the celebration of Adult Learning at the Learning Fair.

The pace varies from fast to "not so fast," and there is plenty of time for checking out the various greenery coming out of the ground.

If you need a little encouragement or have any questions, give Merton Brown a call.

\$1,500 GOAL REACHED AT W.E.S.

The \$1,500 goal needed to help send the 5th-6th graders from Woodstock Elementary School to Boston May 11-12 has been reached, passed and still climbing! The combined successes of the Flea Market and the Bottle Drive Saturday, April 28, pushed donations over the top of the mark. This will allow field trip participants to stay at a motel/hotel. With the prospect of future funds coming in from final tallying of the walk-a-thon, pot luck supper Friday night, and other fund-raising activities, the children will be able to have a good evening meal at a restaurant. Community involvement has been high in this worthwhile effort and the trip should prove to be a memorable experience.

T.T.A.E.R.S. News
(Tri-Town Ambulance & Emergency Rescue Service)
Tri-Town had a good training session on pediatric emergencies led by Ken Bacon. Some of the smaller patients will benefit from the experience.
Five members have recently started an E. M. T. refresher course in Norway. The E. M. T. training must be renewed every two years. The state testing would be held on May 11. Good luck to Mary and Warren Emery, Chris Heffley, Bruce Tyner and Jane Chandler who are taking this course.
The auxiliary is meeting Monday night, May 7 at the West Sumner Fire Station at 7 o'clock.
Safety Tip of the Week:
The 4th in a series of what to do at the scene of an accident. One important thing to be done at the scene of an accident is to help with traffic control. It does not take medical training to stand a short distance from the accident and slow down on-coming cars. At night a flashlight can be very useful to warn on-coming cars.
Remember the patient is most important. If someone is with the patient, maybe your assistance will prevent a second accident from other cars coming too quickly.

HISTORIC PRESERVATION WEEK, MAY 13-19, 1984

"Preservation is taking care of America" has been proclaimed as the theme for National Historic Preservation Week, May 13-19, by the Bethel Historical Society and the National Trust for Historic Preservation.

Approximately 5000 preservation and neighborhood groups will hold events throughout the United States in honor of Preservation Week. Their purpose is to make the public aware of the important contributions historic buildings are making to the prosperity and sense of renewal of America's communities and particularly how quality rehabilitation and maintenance are the keys to preserving historic buildings.

In Bethel, Preservation Week 1984 will be observed by a special exhibit in the town office window. All citizens should take a special interest in historic preservation since the quality of life and sense of place is enhanced by preserving buildings and structures. Bethel has preserved much of its architectural heritage and this has had significant economic benefits attracting visitors from many parts of the world.

Bachelor of Newry; Bradley McLain, son of Mr. and Mrs. Stephen McLain, Jr., of Gilead.

Others making the team with scores of over 250 points were: Fred Burk, son of Mr. and Mrs. Fred Burk, Newry, with 279 points; Stephanie Corriveau, daughter of Mr. and Mrs. James Corriveau of Gilead, 278 points; Doug Bennett, son of Mr. and Mrs. Richard Bennett of Albany, 266 points; Robert Matteson, son of Mr. and Mrs. David Byers of Albany, 260 points; and Carter Davidson, son of Mrs. Gretchen Davidson of Bethel, with a score of 255 points.

The children in this country may be waiting for any one of a number of reasons. They may be school-age; they may want to be placed with a brother or sister; or they may have special needs. The children from other countries are of all ages.
